

Stop the Rot.

from flowering to harvest

Allan Clarke Auckland 2008-2009

Replicated field trials - variety Chardonnay

All treatments at harvest are significantly lower than control ($P < 0.05$)

"We have used Sentinel in conjunction with Biosea oil for Botrytis control in the Richmond Plains vineyard for the past two vintages with truly excellent results.

David Holmes, Organic Viticulturalist for Richmond Plains

Sentinel[®] Bio-fungicide

Registered pursuant to the ACVM Act 1997 No. P7235

As Good as it Gets

Stop the Rot.

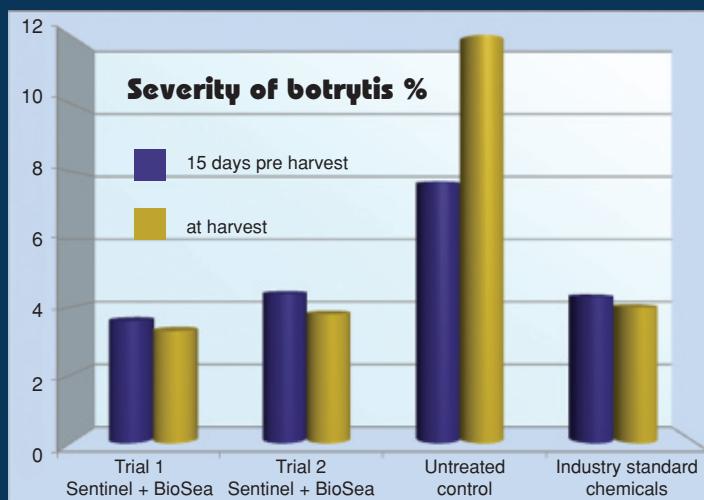

from flowering to harvest

Allan Clarke Auckland 2008-2009

Replicated field trials - variety Chardonnay

Botrytis disease pressure was particularly high during the '07/'08 season and the fruit sprayed with Sentinel was at least as clean as any of the conventionally sprayed fruit that was seen in the winery."

David Holmes, Organic Viticulturalist for Richmond Plains

All treatments at harvest are significantly lower than control (P<0.05)
